

**FST is the international platform trading new & used flight simulation devices.**

In particular, we trade professional flight simulation training devices (FSTDs) approved for pilot training, but we also trade entertainment simulation devices, simulation equipment and offer a variety of flight simulation related services:

We like to offer a platform for all providers and buyers of flight simulation devices and it's for new or used devices alike.

**Key benefits:**

- ▲ Detailed listing of your new or used devices, equipment and components
- ▲ Added value through individual service packages as optional add-on

**Individually bundled services to your listing!**

- ▲ Consulting (Regulatory frame work and flight simulation)
- ▲ Qualification Support
- ▲ Preparation of EASA Documentation
- ▲ Upgrades & Relocation
- ▲ Financing Solutions
- ▲ Factory Acceptance & Evaluations
- ▲ Simulator Design

**Contact us now in order to get listed or inquire for an already listed device or piece of equipment.**  
 Listing with us is free, but we do ask for a sales commission, which we negotiate in accordance with you.

**Your advantages getting listed with us:**

- ▲ Use our platform to get listed and increase your chances to sell or purchase flight simulation training, entertainment devices & flight simulation equipment.
- ▲ Replace your existing device with a new one by getting rid of your used device quickly.
- ▲ Benefit from improved market transparency. We give you a chance to see what's out there on the market and help you with sourcing of new devices.
- ▲ Find flight simulation related services and consulting accompanying your flight simulation purchase or sale, which we can offer to you to make your life easier.

**Purchase-, Sales- and other related service packages offered by FST**

- ▲ Factory Acceptance of new FSTDs (in-plant & on-site) and FSTD Evaluation before purchase, considering the respective regulatory frame work.
- ▲ Project Management (from purchase to qualification): Monitoring the whole process regarding a successful qualification.
- ▲ Qualification Support: preparation and monitoring during evaluation. Revision or preparation of qualification-relevant documentation.
- ▲ Approvals: ATO and/ or FSTD-operator approval according to EASA PART-FCL
- ▲ FSTD Relocation & Testing
- ▲ Upgrade Evaluation & Refurbishing
- ▲ Simulator Design & Manufacturing
- ▲ Financing Solutions For New Devices
- ▲ Current Market Value Opinions
